

# Activity #1: The Brainiest Beat

A Brain Module Activity: **Guess Which Music Makes you Memorize the Best**

## Description

Is music good for you? In this activity, compete against a peer or friend in a 3 minute competition that requires you to memorize as many of the 30 objects that are displayed in a screen in front of both of you. However, there is a catch. Put on the headphones and select your preferred genre of music before starting. Let us see whose beats are the brainiest!

1

## Pick a Music Genre

Choose one of the three genres of music that you think will help you improve your memory the most.

Classical

Pop

Rock

2

## Memorize the Most Symbols

Prove your intelligence by memorizing as many of the images you see while listening to the song. Share with us the names of the symbols you see afterwards. You will only have 1 minute to share with us all the images you see, so make sure your chosen song is the best!
